

# COMBINATION THERAPY WORKS

for Migraine Patients

Combination therapy offers migraine patients  
**A VARIETY OF TOOLS**  
to manage their migraine disease.

**42%**

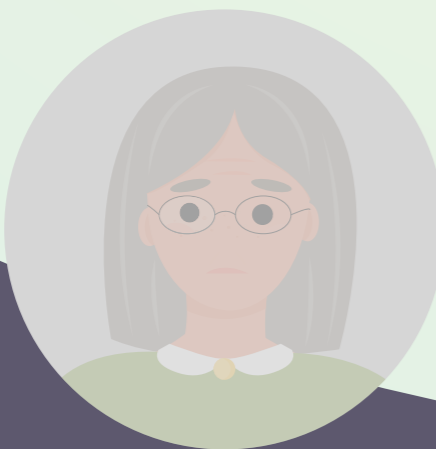

say the severity of their  
migraine attacks  
**DECREASED.**

**44%**

were able to **REDUCE**  
the number of pain  
medications needed.

Yet many patients struggle to access the  
right combination of treatments.

**68% PATIENTS**  
**FACED INSURANCE BARRIERS**  
accessing the combination of  
prescribed medications.

Patients need access to the  
combination of treatments that  
work for their migraine disease.
