

A MIGRAINE PATIENT'S GUIDE TO Dealing with Insurance Denial

1

IDENTIFY THE “WHY?”

Denials can stem from issues like:

- Clerical errors
- Services considered “not medically necessary”
- Medications that need prior authorization

2

ASK FOR DIRECTION

Your insurer can answer questions about the denial. Your doctor’s office may offer advice about appealing.

3

DOCUMENT & RECORD

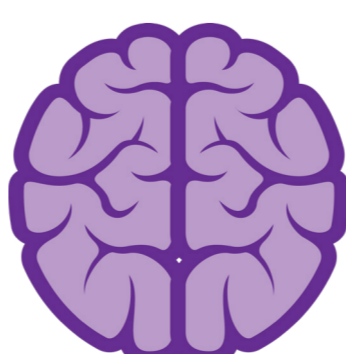

Keep notes on phone calls and important dates. Maintain copies of the appeal letter you send and other correspondence with the insurance company.
